

# Arctic Bryophytes and Lichens

## Future Arctic

A global initiative on bryophyte and lichen Arctic research: from species to ecosystems

**Spring 2017**  
24-26 of May 2017

**Forêt Montmorency (Université Laval),  
Québec, Canada**

**Organizers:**

**Juan Carlos Villarreal & Line Rochefort**

For more information, please contact:

J. Carlos Villarreal (CEN): [juan-carlos.villarreal-aguilar@bio.ulaval.ca](mailto:juan-carlos.villarreal-aguilar@bio.ulaval.ca)

Line Rochefort (CEN): [line.rochefort@fsaa.ulaval.ca](mailto:line.rochefort@fsaa.ulaval.ca)

1. Synthesize the current understanding of Arctic cryptogamic research
2. Emphasis on the interplay between biogeochemical processes, microbial eco-physiology and biodiversity of cryptogams
3. Encourage multidisciplinary collaboration among Arctic researchers
4. Highlight the future research initiatives.
